Hello all,

We still have tour vans in our neighborhood. These pics were taken today at approx 3pm on Beachwood Drive.

Additionally, drones are a DAILY issue. It is in violation of city ordinance to fly drones in our neighborhood (as of 1 Jan 2015), yet there are no posted signs and little, if any enforcement. They are LOUD, a total invasion of privacy, they pose as a navigational hazard (especially with all the helicopters that fly here), and they are a major fire hazard if they crash, with those lithium ion batteries.

I would also like to know how that Bernie Grijalva person is being disciplined. Shame on him, for using his City employment status to break the law. I filed a complaint with LA City Ethics but have not heard anything back.

Regards,
Heather

What's the latest on the employee who flashed his card to drive up to the sign last week?

The employee is being investigated. Most likely will be disciplined. RAP's Maintenance and HR Department is handling. I will keep you informed.

Thank you,
Joe
